God blessed those who praise Him, all praise be God.

I used numerical, cardinal, ordinal characters, and instrumental codexes for determining measurements in sight, sound, and touch.

Furthermore I tied natural biometric data to dispense of conjecture in biblical fact to reproduce laboratory testing of living organisms according to its kind.

I am grateful for the use of laboratory instruments to further expose the richness and abundance in volumetric tetrahedral rhizomatic spaces and ionic spherical data in aerospace dynamisms under the Kerygma Orders of Abba The Father Our Beloved Christ Master Jesus Our Lord.
